Schedules Guide and Template

INTRODUCTION

The intent of the “Community Mental Health and Addiction Program” (CMHAP) funding is to strengthen system support functions and direct services for the purpose of advancing **Phase 2 of Ontario’s Comprehensive Mental Health and Addictions Strategy**, which consists of five strategic pillars:

- Pillar 1. Promote resiliency and well-being in Ontarians
- Pillar 2. Ensure early identification and intervention
- Pillar 3. Expand housing, employment supports, and encourage diversion and transitions from the justice system
- Pillar 4. Right service, right time, right place (improve coordination and transitions)
- Pillar 5. Fund based on quality and need (funding reform)

CMHAP activities relate to one or more of the following system support functions and/or direct services:

1. **Information Management:** activities related to the management of mental health and addiction service system information, including personal client information.
2. **Collaboration & Collaborative Care:** activities related to collaborative care and collaboration in general, including new inter-agency relationships resulting in new protocols and agreements.
3. **Training and Professional Development:** activities intended to ensure appropriate initial & ongoing education and training of professionals/ para-professionals required to perform the full range of system functions.
4. **Knowledge Translation and Exchange:** activities intended to influence service provider behaviour through better knowledge of emerging issues and best-practices. Activities include clinical guideline development, promising practice identification, knowledge translation, knowledge transfer and mentoring, as well as monitoring and evaluation of the success of research and knowledge exchange.
5. **Service and System performance, Monitoring and Evaluation:** all quality assurance and standards activities intended to ensure that: a) services and supports are producing desired client outcomes; b) the system is operating in a way that supports improved client outcomes.
6. **Direct services:** activities involving client assessment and care planning, referrals to follow-up services/supports, and interventions to improve functioning and quality of life, support self-management, wellness, recovery and harm-reduction.
