Topic of Discussion	Follow up
<ul style="list-style-type: none"> • Discussion regarding the low attendance at these meetings and what do we need to do to get the people out to these meetings? London has the lowest functioning local in Ontario. There are multiple tables in London and justice is the piece we aren't looped into. Will take a look at all the meetings and the people who attend these meetings and see who the Chairs of the coordinating committees are to see if we can organize to see if we can get the information fed up and fed down. 	<ul style="list-style-type: none"> • Kate Wiggins and Heather Lumley to meet to organize a plan
<p><i>Provincial Updates - Meeting on April 14, 2015</i></p> <ul style="list-style-type: none"> • Provincial Conference being held in Toronto in November 2015 – Provincial table is encouraging each of the HSJCC Locals to send 2 people who have lived mental health and justice experience to the conference. <ul style="list-style-type: none"> • The conference is open for individual employees or committee members who want to attend. They can submit for funding to be able to attend that conference. • Annual Report - Heather will submit the Annual Report information for the London Local. • Project Charter for review of the Mental Health Courts - In the beginning stage. Looking at pre-court processes and then during court in all the communities across the province taking a look at similarities, differences and best practices. <p><i>Local Updates</i></p> <ul style="list-style-type: none"> • Please forward any local initiatives you would like to do (training, research, resources, publications) • Crystal Meth Protocol – Addiction Services has called a table together with a number of different service providers to deal with substance induced psychosis. They are meeting next week. It went from crystal meth to all substances. Goal is to address the rapid increase in crystal meth users and the impact it is having on different service providers in London. 	

- Street Level Survival Sex Workers - There are 22 different community service providers coming together to help women that are street level survival sex workers. A governance group as well as four different working groups has been set up and by fall hopefully have a plan to do a rapid response housing first model to get the women off the street and into adequate housing and then provide ongoing support for them. Streamlining access and services and getting a more collaboration response versus individual responses.
- CMHA Crisis Centre is still to be up and running by December 2015. Will be located on Huron Street.
- Vulnerable Women's table - working with a number of different service providers. There are now 4 identified women that are circulating non- stop through the shelters, hospital and jail. Trying to get a plan together to better address the needs.
- There was a document put together by the Provincial Correction Ministry around women with major mental health issues and how they may or may not be treating them in a different service delivery model. Only speaks to major mental health. Facility and Service Delivery Options, Analysis and Recommendations Report.
http://www.mcscs.jus.gov.on.ca/english/publications/Corrections/CS_facility_service_delivery.html
- Administrative Segregation in Federal Corrections - Office of the Correctional Investigator for Canada in terms of the federal prison has released a document outlining behaviours and self -injury that happens within the segregation and how that maps over to mental health and addiction issues within the prison system.
