Message from the Provincial HSJCC Co-Chairs

We are pleased to provide the annual report of the Provincial Human Services and Justice Coordinating Committee. The organization of representatives from the 14 regional groups has met bimonthly, with an agenda to coordinate and collaborate on provincial issues that have an impact on the human service and justice system.

The Provincial HJSCC also includes ex-officio members of five provincial ministries (Attorney General, Children and Youth Services, Community and Social Services, Community Safety and Correctional Services and Health and Long Term Care), Connex Ontario, the Ontario Association of Chiefs of Police, the Ontario Provincial Police, Correctional Service of Canada, the Canadian Mental Health Association Ontario, and the Community Networks of Specialized Care.

The past year was marked by a number of accomplishments. We continued to work on our plans to re-structure the HSJCC, researched and developed a new “info guide” for police and hospitals, and began a productive collaboration with the Evidence Exchange Network (EENet) and the *Systems Improvement through Service Collaboratives* with the Centre for Addiction and Mental Health. All of this was achieved with the tireless efforts of both the members of the Steering Committee and the broader HSJCC. We would not have been able to do any of the work without the assistance and support of the Canadian Mental Health Association Ontario, in particular, Uppala Chandrasekera, Michelle Gold and Kelly Downs.

In keeping with our mandate to enhance service delivery to our clients, the Provincial Human Services and Justice Coordinating Committee will continue to provide support and resources to the Regional and Local Committees, and to establish further partnerships with community and government organizations.

Sincerely,

Accomplishments of the Provincial HSJCC

A New Report on Police-ER Protocols

In September 2012, the Provincial HSJCC was approached by the Inter-Ministerial Mental Health and Justice Directors' Group to lead a project to identify protocols and procedures to improve police handoffs of people experiencing a mental health crisis in the Emergency Department. A Working Group was formed that was comprised of police, hospital personnel and community mental health providers. Together, they developed a Call for Information that was sent out across our network and beyond.

The response back was overwhelming. Nearly 100 surveys were returned and close to 60 supporting documents were reviewed by the Working Group. With this information, the Provincial HSJCC prepared an Information Guide entitled *Strategies for Implementing Effective Police-Emergency Department Protocols in Ontario* that distilled the lessons learned by groups creating Police-ER protocols across the province. To view the *Strategies for Implementing Effective Police-Emergency Department Protocols in Ontario* Information Guide, please visit <http://www.hsjcc.on.ca/Uploads/HSJCC-Police-ER-InfoGuide-FINAL.pdf>.

Sharing Exemplary Practices through New Technologies

The Provincial HSJCC delivered two webinars: one based on the *Strategies for Implementing Effective Police-Emergency Department Protocols in Ontario* Information Guide and the second reviewing last year's Information Guide entitled *Strategies for Community Service Providers for Engaging in Communication with Correctional Facilities in Ontario*. The webinars were made possible by a grant received from CAMH's Evidence Exchange Network (EENet). Both webinars received a tremendous response, with registration for the Police-ED session reaching capacity within only a few days of its announcement. To view the archived webinars, please visit <http://eenet.ca/the-human-services-and-justice-coordinating-committee-community-of-interest/>.

The Provincial HSJCC was able to purchase Adobe Connect and is in the process of redesigning its website. The new website, with development support from Connex, will provide a more engaging, technologically advanced venue to share information across the HSJCC and enable broader access to our resources. The new website is expected to be available by Fall of 2013 at hsjcc.on.ca.

Sharing a Police-Informed Perspective on ED Use with Broader Audiences

In March of 2013, a Think Tank on Mental Health and Addictions-Related Emergency Department Use by Racialized Populations in Ontario was held. This event attracted over 100 participants from across the province, including representatives from the Ministry of Health and Long-Term. The Provincial HSJCC was invited to present our *Strategies for Implementing Effective Police-Emergency Department Protocols in Ontario* Information Guide. More information can be found here:

<http://eenet.ca/the-racialized-populations-and-mental-health-and-addictions-community-of-interest/>.

Sharing Knowledge with Policy Makers

The Provincial HSJCC has also been very active in sharing its experience in the Mental Health and Justice sectors with policy makers. Some of the issues that the Provincial HSJCC advised on in the 2012/2013 year are as follows:

- In May of 2012, the Provincial HSJCC presented to the Minister of Community Safety and Correctional Services our findings from our Police and Mental Health project, to support their Ontario Police Review, .To read the submission, please visit <http://www.hsicc.on.ca/Uploads/PHSJCC%20Letter%20to%20Minister%20Meilleur%20May182012.pdf>. The Police and Mental Health Report was included in the Legislative Library of Ontario: <http://www.hsicc.on.ca/PoliceandMentalHealthProject.aspx>.
- In October of 2012, the Provincial HSJCC wrote a letter to the Federal Minister of Justice regarding the opportunity to share our perspective and advice to inform the review of the "Not Criminally Responsible (NCR) on Account of Mental Disorder" Defense under the *Criminal Code of Canada*. The Provincial HSJCC was offered the chance to speak with the Minister on this topic and is currently in the process of arranging a meeting to discuss this important issue. To read the submission, please visit <http://www.hsicc.on.ca/Uploads/PHSJCC%20Letter%20re%20NCR%20Review%20final.pdf>.
- The Provincial HSJCC submitted recommendations to the Ministry of the Attorney General's Justice on Target Bail Expert Table on ways to improve the bail process. A draft report from the Bail Experts Table is expected to be produced by the Spring of 2013.

Keeping HSJCC Network Connected and Informed

Throughout 2012, we also produced the Provincial HSJCC Newsletter, a quarterly publication that offers information about the initiatives of the Provincial, Regional and Local HSJCCs, information on new and promising practices, new research and articles, as well as educational and networking opportunities occurring throughout the province. To access archived newsletters, visit: <http://www.hsicc.on.ca/QuarterlyNewsletter.aspx>

Work In Progress

Other developments of note during 2012/2013 have been discussions with the Justice Service Collaboratives on issues of mutual interest. In September of 2012, the Provincial HSJCC sent out a call to its network to assist the Service Collaboratives in determining projects, locations and potential partners for the upcoming Justice Collaboratives. As a consequence, the Toronto HSJCC and Champlain HSJCC are partnering with the Service Collaboratives on projects in their regions. Currently, the Provincial HSJCC and the Service Collaboratives are in discussion on how to continue to leverage this relationship to the benefit of Ontarians with Mental Health issues.

The Provincial HSJCC is also well underway planning for the upcoming 2013 Provincial HSJCC conference entitled *Realities: The Changing World from Youth to Elderly in Human Services and Justice*. The Biennial Provincial HSJCC conferences have historically been very well-attended, attracting an impressive cross-section of human service and justice workers. Please visit the conference website for more information: <http://www.innovative4you.com/hsicctoronto/conference.htm>

| | <ul style="list-style-type: none"> • New co-chairs for local HSJCC Committee • Court Support Protocol – SAGE Award nominee – TEAM Recognition category • New Urgent Care Opioid Dependence program • Increased community availability of Urgent Short-term counseling – program just underway. • Revitalization of the Niagara Detention Centre Mental Health Committee – new meetings have already started (after a five year dormancy). |
| Champlain Regional HSJCC | <ul style="list-style-type: none"> • Grateful for the support to the two unfunded Local Committees • Support for the first Youth Justice Service Collaborative • Improved communication with local detention centre through the Release from Custody Sub-Committee • Education Sub-Committee has held ongoing sessions for the mental health and justice community. Larger education session in regards to translating the rural success to the urban centres is in progress. • Support provided to our family members to provide a Quality of Life Symposium across Champlain which brought together families and caregivers. A report has been completed, with action items and champions identified. |
| Pembroke Local HSJCC | <ul style="list-style-type: none"> • We had another successful year with good membership and increased representation particularly in the youth services sector. The red bag program continues to work well through our partnership with the Ottawa Carleton Detention Centre. We stuck to our commitment for knowledge exchange by hosting a membership inservice at all of our meetings. These proved to be very informative and educational and included the following sessions: Gladue Report, Community Service Order presentation and a presentation of the First Episode Program of Renfrew County to name a few. This list is by no means exhaustive. These sessions have increased the number of appropriate referrals being made to service providers and in turn has increased the support being offered to special needs offenders in Renfrew County. |
| Stormont-Dundas-Glengarry-Prescott-Russell Local HSJCC | <ul style="list-style-type: none"> • Closed Circuit TV will be available in the In the Cornwall Court House sometime in 2013. • Evidence gathered in support of an eventual goal of developing a Mental Health Court at the Cornwall Court House to better respond to the needs of vulnerable individuals. • First Annual P-R LEAD Team Training took place November 29-30, 2010 – en Français. Funding source for this event was provided by Eastern Ontario Network for Specialized Care • Secure sustainable funding will be available for the training annually in each community • Development of Protocol and discharge planning guidelines, improved networking and cross-sectorial partnerships. Improved outcomes for individuals with intellectual disabilities, a dual diagnosis or concurrent disorders. |
| Durham Regional HSJCC | <ul style="list-style-type: none"> • In January 2013 a presentation to DHSJCC from the local Victim Witness Assistance Program in relation to an initiative in Durham referred to as the Aged HART Committee. <ul style="list-style-type: none"> ○ This group recognized an issue of growing concern for both the elder care and criminal justice system in relation to elderly persons who find themselves involved in the Criminal Justice System (as victims or offenders). ○ The presentation was insightful and raised a number of questions which resulted in a joint effort by representatives from the Health, Social and Justice Services. Through a case management model, it was often noted that there were gaps in service for these individuals as often mental health issues and dementia were significant factors. ○ Outcome was commitment for both of the committees to continue to communicate, to further explore and hopefully address the service gaps for this |

| | <p>particular population with mental health needs</p> <ul style="list-style-type: none"> • Cyberspace Impact conference March 7 – “The Real Dangers of Virtual Worlds and Communication” <ul style="list-style-type: none"> ○ Attended by 190 people representing over 30 (health, justice & social) different organizations within Durham region from the, moderated by: Dr. Bruce Ballon, Problem Gambling Institute of Ontario at the Centre for Addiction & Mental Health (CAMH) ○ Presentations from CAMH - Lisa Pont, “Youth Who Overuse technology” ○ Steve Chaisson- Lakeridge Health Pinewood Centre “Gambling Addiction” ○ Dan Hogan Durham District school Board and DRPS Const. Pam Devine on “Digital Safety (Cyber Bully, Sexting and Luring)” ○ Student run drama group R.E.A.L from Courtice Secondary School presentation |
| Haliburton/ Kawartha Lakes/ Pine Ridge Regional HSJCC | <ul style="list-style-type: none"> • 7th annual regional conference was a huge success. 75 individuals from all four locals and other local community agencies attended the event which was held at the Lindsay Golf and Country Club. The theme was “Making Connections: Crime, Mental Health and Addictions.” Dr. Lisa Ramshaw from CAMH was the key note speaker, followed by Dr. Glenn Robitaille from Waypoint, a presentation on Police Record checks, privacy and human rights which was facilitated by a representative from the John Howard Research Department and from a Canadian Civil Liberties Association. To conclude the event was a panel discussion and consisted of presenters who focused on “Opiates, Methadone and Substance Use”. The conference was organized by co-chair Martina Piccinin with the assistance of regional HSJCC member (JHS Lindsay ED), Laura Maw. The Regional Committee fully funded the conference. • Ongoing efforts have been made to establish Bail Support in Peterborough and Northumberland and currently this is being tracked by way of a property tracking form. • Ongoing efforts have been made to expand on broader representation across all sectors and we have been able to attract a few new members. • Regional HSJCC supported a forensic community based project through U-Links and Trent University with the support of Laurie Green and Dave Jarvis. The finding and outcome presented as valuable information the the research student along with her supporters presented her findings a regional HSJCC meeting. • The committee has tried to rotate the location for meetings as well as incorporating tours such as a tour of Central East Correctional Centre and Oshawa Shores |
| Haliburton Local HSJCC | <ul style="list-style-type: none"> • Stakeholder membership has stabilized significantly. Collaboration at both the committee level and direct response from local HSJC member activities has directly lead to unique community interventions over the past seven months that has involved Police Services, Mental Health, Crowns office and 4 County Crisis; • Standing members continue to meet monthly; meetings consist of approximately 10 to 12 participants, who represent a good balance between Human Service and Justice sectors; The Haliburton HSJCC continues to be challenged by having the smallest population, the largest geographic area and the most economically deprived population of the four county regions. Often services for the population are provided from outside the county by agencies who’s primary goal is service provision in the larger more well to do counties. Since the Haliburton Local HSJCC has started their work, there is a slow but steady turn towards having services provided in the county for the county or at very least services that are becoming more Haliburton friendly and take into consideration the unique population of Haliburton. • The presence of Police Services as regular members has made a huge impact in terms of identifying and leveraging intervention at the front-end. 2012 was a year of transitions for the local OPP detachment and the HJSCC is looking forward to some stability now with both a newly appointed Detachment Commander and Community |

| | Services Officer. |
| Kawartha Lakes Local HSJCC | <ul style="list-style-type: none"> • This HSJCC continues to be an active and committed group of community partners. In May, 2012, the committee completed a brainstorming session and developed a two year workplan for 2012-2014. All of the work aligns with this work plan. The HSJCC has looked at increasing representation on the committee and have added reps from CAS and youth probation, as well as the new Mental Health Nurse at CECC. The committee has developed standing agenda items including “community response” which allows them to talk about certain issues/challenges facing an organization or a member and generate possible solutions. They have also included agency presentations in the monthly agenda where a member talks about their agency and how their work ties into the HSJCC. The HSJCC has also offered tours of CECC and Community Court so that members have a better understanding of the systems in place in our work. • A few years ago, Kawartha Lakes Local HSJCC implemented two programs to address gaps in the community. One was a bail transportation program where the HSJCC funds one-way transportation for individuals released on bail who don't have a way to get to shelter. They also fund a property pick-up program whereby bus tokens are available to individuals released from Lindsay court who need transportation assistance to get back up to the jail to get their property. These programs continue to receive funding support from the HSJCC and updates on usage are offered to the committee monthly. • The committee also developed a fund available for committee members to attend trainings and conferences that relate to the HSJCC. Members are asked to report back to the committee about their learnings. |
| Northumberland Local HSJCC | <ul style="list-style-type: none"> • Membership has remained strong across all sectors. • The Northumberland HSJCC continues to offer a transportation initiative for clients to attend appointments and have involvement with the Criminal Justice System. • The committee began collecting statistics on how many inmates were released from jail without their personal belongings. The statistics are to assist with future planning and advocacy within the system. • The committee connected with Partner's for Mental Health and is exploring initiatives to join them with National mental health promotional campaigns targeted at the work place and with youth. • We assisted with the funding of an education day in Port Hope where professionals were invited to walk through mock scenarios of mental health, justice and addictions issues. The day concluded with presentation on how to access the crisis, mental health and addiction services in Northumberland County. • As part of our desire to reduce stigma and raise awareness of services, we purchased advertisement space in High School yearbooks and provided numbers to call for help with mental health struggles. • Funding was provided to a local mental health agency to provided prizes for high school students in designing posters that promoted stigma busting. This agency will then use the winning poster as a future educational tool for promoting awareness in the more rural areas of the County. |
| Peterborough Local HSJCC | <ul style="list-style-type: none"> • Development of a Bail support program with the Justice system • Development of a Youth Subcommittee to address current youth issues and trends related to drug and alcohol, violence, and bullying • Education and outreach to schools and parent support groups related to current issues in mental health and addictions • Pilot project development of assisting individuals who are released from custody to obtain their personal property |

|----------------------------------|---|
| Halton Regional HSJCC | <ul style="list-style-type: none"> • Community Treatment Court opened May 4, 2012 • Fetal Alcohol Spectrum Disorder (FASD) subcommittee held a Community Awareness Day – September 9, 2012 • John Howard Society Youth Justice program provided school presentations/community forum re: bullying, self-esteem throughout the year • Common Crisis Plan Project initiated |
| North East Regional HSJCC | <ul style="list-style-type: none"> • Held joint videoconference between the regional committee and local committees for information sharing. CEO of NE LHIN Louise Paquette ‘opened’ the meeting. • Our regional booklet on dual diagnosis and the justice system is being translated into French and will be available online soon. • The Northeast Regional HSJCC worked in partnership with CAMH, NBRHC and CMHA-SM to host a Forensic Meeting of the Minds webinar/OTN education session on the Bill-54, the NCR Reform Act. The session featured four speakers that reviewed the legal changes and clinical implications. The session was recorded and is posted on the OTN site. • The mental health court programs in the North East Region have commenced phase 1 of a regional outcomes project. A web based portal hosted by Stratim Consulting Services has been developed and started collecting data on April 1/13. The current outcomes that are being collected include: mental health diversion and alternate diversion success rate, and fitness screenings / admission aversion rates. Phase two for this project will analyze the data collected and review local and regional trends and define further outcomes. • Provided the funding for the committee’s consumer representative to attend the International Conference on Special Needs Offenders in Ottawa in August 2012. |
| Algoma District HSJCC | <ul style="list-style-type: none"> • Improved flow and collaboration between City Police and Sault Area Hospitals through implementation of The Emotionally Disturbed Persons Form. • Presented at the HSJCC communicating with correction webinar on The Urgent Needs Communication Form used by ATRC and CMHA. • Presented at the Regional wide HSJCC on Sault Community Court. • Partnership developed between CMHA SSM Branch and CMHA Toronto on Tele-psychiatry. • Implemented the Youth Mental Health court program. • Meeting between Crown, hospital, court program and police helped to deal with in-patients who have assaultive behaviours. • Presentations on the role of the Justice of the Peace, Youth Probation and tour of new hospital. |
| Cochrane District HSJCC | <ul style="list-style-type: none"> • Completion of the Crisis System Mapping Project and on June 2012 release of the Report completed by Leclair Planning Consultancy titled: Review of Crisis Services and Programs for the ‘Common Client’ in Times of Crisis: Findings and recommendations. <ul style="list-style-type: none"> ○ The report is in the public domain and available for consideration and possible implementation by individual and collective human service providers, stakeholders and funders throughout Cochrane District. ○ As an example the mental health and the addiction committee are referring to the Crisis Mapping Project document and the CD-HSJCC had agreed to follow-up with the group on occasion. ○ Commissioning of Leclair Planning Consultancy to undertake a review of the justice systems services and supports for the “common client in times of crisis”. The Justice Mapping Project will complement the Crisis Mapping Project completed in the spring of 2013 |
| Nipissing District Local | <ul style="list-style-type: none"> • Sponsorship of 1.5 day training workshop in June 2012 on “Person Centered Risk Assessment”; 30 attended, predominantly by DD staff and some mental health staff. |

Individuals at end of sentence who require return to Kingston are bussed to Belleville and must wait all day for a late bus to get them back to Kingston. This has been identified as a challenge for some people being released especially if appointments have been set up for them. To deal with this some monies from HSJCC budget has been utilized for transportation assistance. If criteria are met then money can be obtained for cab chit to go directly to Kingston. • Crisis Intervention Training <ul style="list-style-type: none"> ○ This year the committee worked with OPP vulnerable persons co-coordinator, Judy Alton, to bring OPP standardized crisis intervention training to the area. Sixteen OPP were trained in the model and feedback was extremely positive. |

| Windsor-Essex Local HSJCC | <ul style="list-style-type: none"> The Windsor-Essex Local HSJCC has grown to 56 members with 18 – 20 members attending meetings regularly. Three members have expressed interest in representing the Local HSJCC at the Regional level. The committee continues to recruit for a co-chair. At this time, Marilyn Weller, Manager of Specialized Services for CMHA-WECB serves as the chair. The Windsor Drug Court is running on a regular schedule now and is providing specialized court services. The Chair of the Drug Court Subcommittee is a member of the Local HSJCC, providing a good source of communication on the progress of this court program. The Drug Court is reporting the successful diversion of clients into treatment. The local 672 Court continues to run smoothly with the commitment of a well-integrated team. The 672 Court has benefitted from the leadership and dedication of its three Justices. There will be major changes in the Justices serving this court in 2013 with a retirement and a relocation pending. The remaining Justice will attempt to recruit other Justices to serve in this specialized court. The 672 Court’s community partners include on-site support from Legal Aid Windsor, Community Legal Aid, Regional Support Associates, Windsor Regional Children’s Centre, and CMHA-WECB. The Local HSJCC applied to the Regional HSJCC for special funding to publish an additional 2000 copies of “Navigating the Criminal Justice System” booklet for use with the general public and our justice clients. The booklet will be distributed through CMHA, the CMHA Court office, Legal Aid Windsor, Community Legal Aid, and other community locations where it is likely to be useful. The Windsor Police COAST Team and the OPP Mental Health Response Unit were launched and are now fully operational in the area. |
